

Vocabulary:

- Abstraction
- Class
- Compiler
- Const
- Constructor
- Executable
- Object
- Parameter
- Scope
- Vector
- Warning

Loops:

- Break
- Continue
- Iterations

Functions:

- Definitions
- Calls:
 - By reference
 - By value

Files:

- Reading from
- Writing to
- fstreams

Classes:

- Public/private
- Class functions
- Friends
- this ->
- setters/getters
- constructor
- constructor overload

Branches

Boolean logic

Default parameter

Vectors/Arrays
